

Need continuing education or training in a specific topic related to the building industry or code administration?

Look no further, Pennsylvania Municipal Code Alliance is a proud member and supporter of the International Code Council's preferred provider continuing education program. We provide instructors, training materials, handouts, and even locations if necessary to meet the requirements of the International code Council for continuing education.

What is the preferred provider program?

The ICC Preferred Provider Program (ICC-PPP) focuses on training opportunities as they relate to codes, standards and guidelines, as well as building construction materials, products and methods. The Program recognizes and promotes ICC-approved educational courses

Pennsylvania Municipal Code Alliance is a proud member of the ICC preferred provider program offering over 23 approved courses, on demand, in the areas of building construction, fire code, electrical, energy, accessibility, floodplain management, pool & spa, administrative duties, and enforcement requirements.

More information can be found at the ICC preferred Provider Program Website at <https://ppp.iccsafe.org>

Individuals looking for educational opportunities need look no further than the ICC Preferred Provider Program. Learners can select from a comprehensive variety of onsite courses that are focused on their direct needs.

PMCA will also customize courses to meet specific topics, training requirements, or audiences. Each course is attended comes with the appropriate amount of continuing education credits recognize both by the International Code Council Preferred Provider Program and the Pennsylvania Department of Labor and industry.

For more information on our training or custom course programs please feel free to contact us at pmca@pacodealliance.com . We look forward to the opportunity of being of service to you and your organization.

Preferred Provider Program FAQ:

1. Why did ICC create a Preferred Provider Program?

The building construction industry is vast, involving many fields of science, technology, construction materials, building components, methods of construction, legal, management, finance, codes, standards, guidelines, best practices, and more. Relevant training in these and other building construction-related topics are important to the entire construction industry and building safety community, and they should be encouraged, given due credit, and allowed to count toward renewal of ICC certifications. Since no one entity or industry, including the ICC, is able to provide relevant and effective training in all of the building construction and code administration fields, ICC created partnerships with other reputable training Providers to facilitate the availability of diverse training. These partnerships are organized in the form of the Preferred Provider Program.

2. What are the main goals of the Preferred Provider Program? The ICC Preferred Provider Program is intended to accomplish several goals:

- Create an easily accessible network of extensive training opportunities from a variety of educational resources;
- Provide access to quality training on specialty topics and building products that are beyond the ICC core training programs;
- Provide increased quality and support for educational renewal requirements of the ICC Certification Program; and
- Enhance the relationship between ICC and educational Providers in support of building safety and innovation in building products and construction practices.

3. What is the benefit of the program to those seeking training? There are many benefits to those seeking training, including:

- A comprehensive listing of relevant educational programs and expanded access to educational offerings is available. These include available training, both on-site and online, and are identified through a live training schedule on the ICC Preferred Provider website at www.iccsafe.org/PP.
- Users have access to information about products and services of Preferred Providers.
- Increased opportunity to create a relationship and network with ICC Chapters, industry, and other Preferred Providers.
- Utilization of Preferred Provider educational programs to gain CEUs as required for renewal of ICC Certifications.
- Access to a vast training network on-site or online that might be available for free or a very nominal fee and count toward certification renewal.
- Confidence in courses that qualify for CEUs without having to do an extensive search of the education provider qualifications.
