INTERPRETATION OF CHANGE OF OCCUPANCY PROVISIONS

The International Building Code as well as the several International Codes incorporated therein by reference and the Pennsylvania Uniform Construction Code (PA U.C.C.) sets construction, occupancy and life safety standards in general by reference to "use and occupancy" classifications. (Reference Chapter 3 Section 302.1 of the International Building Code)

The PA U.C.C. defines the term "occupancy" as the "Approved use of a building or structure under the Uniform Construction Code". (Reference Section 401.1 of the PA UCC.Regulations)

Section 403.42 (a) of the Pennsylvania Department of Labor and Industry issued regulations under the PA U.C.C. relating to the requirements for obtaining a permit, provides as follows:

Section 403.42 Permit Requirements and exemptions.

- (a) An owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish or ***change the occupancy of a commercial building***, structure and facility or to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical, or plumbing system regulated by the Uniform Construction Code shall first apply to the building code official and obtain the required permit under Section 403.42a relating to permit application). [Emphasis added]

Based on the foregoing, no permit shall be required solely upon change of a tenant (occupant) in a commercial building, but if there is **proposed any change of purpose or level of activity, a permit shall be required**. Any question concerning whether a proposed change is, in fact, a change of purpose or level of activity should be referred to the "Building Code Official: PA MUNICIPAL CODE ALLIANCE, INC. at 1013 Wayne Avenue, Chambersburg, PA 17201: telephone 717 496-4996, e-mail: pmca@pacodealliance.com. The attached form may be used to make inquiry. If mailed, a pre-addressed stamped envelope must be enclosed for a return mail response.

► ► All inquiries must include the Municipal Land Use Permit Application ◀ ◀
